

BIKE 09

MONDRAKER

ZERO

SUSPENSION SYSTEM

When Zero means everything...

Zero power loss

Zero vaivén al pedalear. El sistema de fuerzas completamente equilibrado de Zero elimina cualquier movimiento de la suspensión inducido por la pedaleada. Máxima eficacia de pedaleo y rodar efectivo sin comprimir ni extender la suspensión trasera.

Zero bob when pedalling. Pedalling and suspension forces are perfectly balanced and Zero suspension system prevents any unwanted movement produced when pedalling. Maximum efficiency without extra compression or extension of the rear suspension.

Zero effet de pompage au pédalage. Le système de force complètement équilibré de Zero élimine tous les mouvements de la suspension induits par le pédalage, il permet un roulage effectif sans que se comprime ni s'étende la suspension arrière.

Zero pedal kickback

Zero interferencias con el pedaleo. La elongación de la longitud de la cadena a lo largo del recorrido de la suspensión es inapreciable por lo que no se produce ningún retroceso de las bielas hacia atrás que pueda interrumpir el avance o la cadencia de pedaleo.

Zero pedal feedback. Chain length growth throughout the suspension travel is insignificant; this is the reason to avoid any backwards movement of the crankset that could lead to a poor efficiency or proper cadence.

Zero interférences avec le pédalage. L'allongement de la longueur de la chaîne selon la course de la suspension est imperceptible, il ne se produit aucun retour en arrière des manivelles qui puisse altérer l'avancée ou la cadence lors du pédalage.

Zero brake influence

Zero interacción de la frenada. La acción de la pinza del freno de disco y las fuerzas que esta genera no afectan al sistema endureciendo la suspensión. Esto permite que la suspensión siga actuando natural y perfectamente sin extensiones o compresiones involuntarias debidas a la interacción del freno.

Zero brake jack. Brake forces do not alter suspension forces so rear brake do not affect the system stiffening the suspension. This allows the suspension to work naturally and perfectly without any unwanted compression or extension movement regarding the interaction of the rear brake.

Zero interaction du freinage. Le travail de l'étrier de frein à disque et les forces qu'il produit n'affectent pas le système, cela permet à la suspension de continuer à agir naturellement sans extensions ou compressions involontaires.

Zero bumps

Zero baches. El sistema ofrece una sorprendente y excelente naturalidad de absorción que logra hacer desaparecer todo tipo de impactos. El sistema Zero esta configurado para obtener el óptimo rendimiento trabajando con un mínimo del 30% de SAG sobre al amortiguador trasero; entre el 30-35% descubriremos todas sus ventajas.

Zero bumps. Rear suspension system features an amazing excellent natural absorption with impressive any type of bump eating capabilities. Zero suspension system is designed to obtain optimum performance working with minimum SAG of 30%; in-between 30-35% range we will discover its best advantages.

Zero secousses. Le système offre une excellente absorption naturelle qui réussit à faire disparaître tous les impacts. Le système Zero est configuré pour obtenir un rendement optimal lorsqu'il travaille avec un SAG de l'amortisseur minimum de 30%, entre 30 et 35% tous ces avantages seront flagrants.

SDUNE XR

ZERO
SUSPENSION SYSTEM

El exclusivo sistema de suspensión Zero representa la innovación tecnológica más importante desarrollada por Mondraker. Zero se define como un sistema de pivote virtual donde el amortiguador pivota entre dos bieletas de modo flotante, ya que ambas comprimen el amortiguador por sus extremos. El óptimo posicionamiento de los puntos de giro unido a la específica ubicación del amortiguador trasero confieren al sistema Zero claras ventajas respecto a los sistemas de suspensión referentes en el mercado ya existentes.

Zero ofrece total independencia de la pedaleada, inapreciable elongación de la cadena, nula contaminación con la frenada y una capacidad de absorción bruta que hace que desaparezca cualquier bache u obstáculo. Además, su disposición y concepción mecánica, añade una excelente naturalidad de absorción en todo tipo de impactos, gran sensibilidad y rapidez de reacción ante cualquier circunstancia como tres de las virtudes más significativas e importantes que cualquier usuario podrá percibir.

The exclusive Zero suspension system represents the most important technological innovation developed by Mondraker. Zero defines itself as a virtual pivot system having the rear shock floating between the two system links, which compress the shock at the same time on both sides. Thanks to the pivots optimum position together with the specific rear shock location, Zero suspension system has clear advantages compared directly to the already existent best rear suspension systems.

Zero offers total pedalling independence, no noticeable chain elongation, no brake jack and a impressive and outstanding bump absorption that make any obstacle disappear. Besides, its mechanical disposition and conception contribute to this "any kind of impact" excellent absorption; great sensitivity and instant reaction to any circumstance are three of the most important features that any user will feel.

Le système de suspension exclusif Zero représente la plus importante innovation technologique développée par Mondraker. Zero se définit comme un système de pivot virtuel dans lequel l'amortisseur flotte entre les deux biellettes de telle sorte qu'elles le compriment des deux côtés. Le positionnement optimal des points de pivot ainsi que le positionnement spécifique de l'amortisseur confèrent au système de clairs avantages face aux systèmes de suspension déjà existants.

Zero offre une indépendance totale au pédalage, un allongement de chaîne imperceptible, une contagion du freinage sur le système nulle et une capacité d'absorption brute qui fait que tous les obstacles disparaissent. De plus, son positionnement et sa conception mécanique produisent une absorption de tous les impacts très naturelle, une grande sensibilité et une rapidité de réaction élevée en toutes circonstances ainsi que trois des vertus les plus importantes que l'utilisateur pourra percevoir.

La Kaiser ha recibido los cambios geométricos necesarios para alzarse en los podiums de la copa del mundo de DH. La experiencia del doble campeón del mundo Fabien Barel ha servido para que la Kaiser ahora sea más rápida. Este año se amplía la gama Kaiser con un primer modelo a un precio deslumbrante con el que podrás afrontar cualquier DH con total garantía. También se tiene la opción de tener la réplica exacta de la bici del equipo Subaru Mountain Bike Pro Team, la bici campeona de Europa!

Kaiser has received the necessary geometric changes in order to reach the podiums of the DH world championship. The experience of the double world champion, Fabien Barel, made the Kaiser even much faster. This year, the wide range of Kaiser with a first model at an astonishing price, will allow you to face any DH. You do also have the option to get the exact replica of the Subaru Mountain Bike Pro Team, the European bike champion!

Le Kaiser reçoit les modifications de géométrie qui lui ont permis de se hisser sur les podiums de Coupe du Monde de DH. L'expérience du double champion du Monde Fabien Barel a été utilisée pour que le Kaiser soit plus rapide. Cette année la gamme Kaiser s'agrandie avec un nouveau montage au prix imbattable qui permettra d'affronter toutes les descentes avec un maximum de garantie. Il est aussi possible d'opter pour la réplique parfaite du vélo du Subaru Mountain Bike Pro Team, le vélo champion d'Europe!

El referente Freeride dentro de la gama Mondraker. Con sus 180mm de recorrido y construcción sobredimensionada en 6061 T6 podrás disfrutar de los bikeparks y salidas freerides con la única preocupación de que no cierren el telesilla para poder bajar otra vez.

En el modelo Plunder R encontrarás las ventajas del nuevo sistema de cambio Hammerschmidt FR, que te permitirá cambiar sin dar a los pedales, librar mayor distancia al suelo, efectuar el cambio de una manera más rápida, tener la cadena siempre en su sitio sin necesidad de un guiacadenas, simple y sencillo sin ningún tipo de mantenimiento. Entra en una nueva dimensión...

Plunder is the Freeride reference within Mondraker range. With its 180mm travel and oversized construction in 6061 T6, you will enjoy the bike parks and freerides only thinking about not getting the chair lift closed before having another round.

With Plunder R model you will find the advantages of the new shifter Hammerschmidt FR which will allow you to change without pedalling, more distance to the ground, a faster change, having the chain always in its place without needing a chainguide, simple and easy without any kind of maintenance. Get in the new dimension...

La référence Freeride dans la gamme Mondraker. Avec ses 180mm de débattement avant-arrière et sa construction surdimensionnée en 6061 T6, tu pourras profiter des bike parks et des sorties freerides en n'ayant qu'une seule préoccupation, arriver avant que les remontées mécaniques ne ferment pour enfiler une autre descente.

Avec le nouveau Plunder R tu obtiendras les avantages du nouveau système de dérailleur Hammerschmidt FR qui te permettrons de changer de plateau sans pédaler, d'avoir plus de garde au sol, d'effectuer le changement plus rapidement et que la chaîne soit toujours à sa place sans avoir d'anti déraillement. Simple et facile, sans aucune maintenance. Rentre dans une nouvelle dimension...

Prayer es una bicideta que define a la perfección la filosofía de la marca. Una bicideta de freeride que te permita subir cómodamente y que gracias a sus 160mm de recorrido y a una geometría ideal, te permita afrontar las bajadas de una manera muy divertida. Este año podrás disfrutar de un Prayer de primer precio con un montaje de lo más capaz para que no tengas excusas para iniciarte en el mundo del freeride.

En el modelo Prayer Coil R y Prayer Air, encontrarás las ventajas del nuevo sistema de cambio Hammerschmidt AM, que te permitirá cambiar sin dar a los pedales, librar mayor distancia al suelo, efectuar el cambio de una manera más rápida, tener la cadena siempre en su sitio sin necesidad de un guiacadenas, simple y sencillo sin ningún tipo de mantenimiento. Entra en una nueva dimensión...

Prayer is the bike that perfectly defines the philosophy of the Brand. A freeride bike which will allow you to climb comfortably and, thanks to its 160mm travel and an ideal geometry it will let you face the downhill in an amusing way. This year you will enjoy a first price Prayer with an advanced assembly and you will have no excuses to get started in the freeride world.

In models Prayer Coil R and Prayer Air you will find the advantages of the new shifter Hammerschmidt FR which will allow you to change without pedalling, more distance to the ground, a faster change, having the chain always in its place without needing a chainguide, simple and easy without any kind of maintenance. Get in the new dimension...

Le Prayer est un vélo qui définit à la perfection la philosophie de la Firme. Un vélo de freeride qui te permettra de pédaler confortablement et qui, grâce à ses 160mm de débattement et une géométrie idéale, te permettra d'affronter les descentes d'une manière très amusante. Cette année la gamme inclut un premier Prayer au prix et au montage qui le rendent capable de tout, tu n'auras plus d'excuses, nous voulons t'initier au monde du freeride.

Nuevo cuadro para el exitoso modelo Factor de 120mm de recorrido, este año más todo uso que nunca. Gran rigidez del conjunto debido a la bieleta construida en una sola pieza, nuevas punteras aligeradas que abrazan a la vaina por ambos lados, triángulo principal hidroformado con nervios laterales que incrementa la resistencia y rigidez a la vez que se disminuye el peso, punto de giro de la bieleta integrado en el tubo del sillín, 120mm de recorrido que gracias al sistema DBA (Develop Bearing Allocation) te permitirá disfrutar de tus salidas en bici tanto subiendo como bajando.

New frame for the successful Factor model of 120mm travel. Great stiffness of the group due to its one-piece main link, new drop-outs that has been lightened and hold the chain stay by both sides, the main triangle is hydroformed with nerves at both sides which increase the resistance and stiffness at the same time the weight is reduced, main link pivot point integrated in the seat post. 120mm travel that, thanks to the system DBA (Develop Bearing Allocation) will allow you to enjoy your rides not only going down but also climbing.

Nouveau cadre pour le triomphant modèle Factor de 120mm de débattement, cette année plus tout usage que jamais. L'ensemble offre une grande rigidité grâce à la biellette construite en une seule pièce, et aux nouvelles pattes allégées embrassant les bases des deux côtés. Le triangle principal est hydroformé avec des nervures latérales qui augmentent la résistance et la rigidité tout en réduisant son poids. Dans la même optique, le tube de selle intègre le point de pivot de la biellette. Ses 120mm de débattement sont obtenus par le système DBA (Develop Bearing Allocation) qui te permettra d'atteindre de grandes performances en montée comme en descente.

Factor XC

La Máxima expresión del XC de doble suspensión en la gama Mondraker. Utilizando componentes 100% XC se monta este cuadro de carbono de 100mm de recorrido con el que se busca optimizar al máximo la energía del ciclista. Ligereza, comodidad y fiabilidad son las máximas que se han tenido en cuenta para desarrollar la gama Factor XC Carbon. Suspensiones Rock Shox, transmisión Shimano, ruedas Mavic... y a pedalear!

The maximum expression of XC double suspension in the Mondraker range. We assembled this frame of 100mm using 100% XC components because we want to optimize the energy of the rider to the top. Lightness, comfort and reliability are the maxims we took into account in order to develop the Factor XC range. Rock shox suspension, Shimano transmission, Mavic wheels... and ride!

La plus pure expression du XC tout suspendu par Mondraker. Des périphériques 100% Cross Country sont combinés au cadre carbone dont le débattement est de 100mm et qui bénéficie d'une cinématique qui optimise un maximum l'énergie du cycliste. Légèreté, confort et fiabilité ont été les points prioritaires pris en compte pour développer la gamme Factor XC Carbon. Suspensions Rock Shox, transmission Shimano, roues Mavic... Il ne reste plus qu'à pédaler!

MONDRAKER

Línea de bicicletas diseñada para cubrir las necesidades del público femenino. Todo en estas bicis está pensado para adaptarse completamente a la anatomía de la mujer, desde el cuadro, geometría, peso, componentes... con estas bicis ya no hay excusa.

- Cuadros con geometría específica GO, tubo superior más corto y más distancia libre al suelo para conseguir más confort y maniobrabilidad encima de la bicicleta.
- Horquilla con un pre ajuste de compresión más blando enfocado a un menor peso corporal.
- Potencia más corta para facilitar el control de la bicicleta.
- Manillar más estrecho para adaptarse a una menor anchura de hombros.
- Puños de espuma de alta densidad más confortables.
- Manetas de freno con menor distancia al manillar.
- Neumáticos más estrechos para rodar con más agilidad.
- Sillín específico para la anatomía femenina.

Bicycle line designed to cover the needs of the feminine public. Everything in these bikes has been designed in order to completely fit the women anatomy, from the frame, geometry, weight, components... with these bikes there is no excuse.

- Specific frame with GO geometry, shorter upper tube and more free distance to the ground in order to get more comfort and a better control on the bike.
- Specific compression fork, softer and focused to face less corporal weight.
- Shorter stem in order to reach the handlebar better.
- Narrower handlebar to fit the small distance between the shoulders.
- Foam grips of high density, more comfortable.
- Brake lever with less distance to the handlebar.
- Narrower tyres for an easy riding.
- Specific seat for the feminine anatomy.

Ligne de vélos étudiés pour couvrir les besoins du public féminin. Tout est pensé pour qu'ils s'adaptent complètement à l'anatomie féminine, du cadre en passant par la géométrie, le poids, les équipements... avec ces vélos il n'y a plus d'excuses.

- Cadre avec une géométrie spécifique GO, tube supérieur plus court et garde au sol plus importante pour obtenir un plus grand confort et une plus grande maniabilité sur le vélo.
- Fourche avec des réglages d'usine en précontrainte inférieurs pour une masse corporelle inférieure.
- Potence plus courte pour faciliter le contrôle du vélo.
- Cintre plus étroits pour adapter le poste de pilotage à une largeur d'épaule inférieure.
- Grips en mousse de haute densité plus confortables.
- Manettes de freins avec une garde au cintre inférieure.
- Pneus plus étroits pour rouler avec plus d'agilité.
- Selle spécifique pour l'anatomie féminine.

Para las más atrevidas que quieran disfrutar tanto subiendo como bajando, la gama Factor cuenta con su modelo GO que aporta ligeros cambios en sus componentes para adaptarlos a la morfología de la mujer. 120mm de recorrido que de seguro hará de esta All Mountain tu amiga inseparable.

For the bravest who want to enjoy either climbing or going down, the Factor range has its model GO that has a few changes in its components in order to adapt them to the women anatomy. 120mm travel will make for sure this All Mountain your inseparable friend.

Pour les plus aventurières, celles qui veulent prendre du plaisir en montant et en descendant, la gamme Factor présente son modèle GO, proposant de légères mutations pour l'adapter à la morphologie féminine. 120mm de débattement feront de ce All Mountain le compagnon idéal de tes randos.

- # Mondraker GO 6061 Hydroformed DBA frame
- # Rock Shox Recon 335 SA fork, 120mm
- # Fox Float RP2 rear shock, 120mm
- # Avid Juicy 3 160mm brakes
- # Sram X7 + X5 Trigger shifters
- # Onoff Rail Wheelset

La Play GO garantiza el mismo grado de diversión de toda la familia Play pero con componentes adecuados a la mujer; geometría street, manillar más estrecho, neumáticos más finos para rodar con más agilidad, puños de espuma de alta densidad más confortables, sillín específico para la anatomía femenina... Simplemente, monta y juega.

Play Go guarantees the same level of fun than in the Play family but with the components adjusted to women; street geometry, narrower handlebar, thinner tyres to ride with more agility, high density foam grips which are more comfortable, a specific saddle adapted to the female anatomy... Just ride and play.

Le Play GO garantie le même niveau de divertissement que toute la gamme Play mais avec des composants adaptés à la femme, géométrie street, cintre plus étroit, des pneus plus fins pour rouler avec plus d'agilité, des grips plus confortables en mousse de haute densité, une selle spécifique pour l'anatomie féminine... Monte dessus et joue, tout simplement.
