

MONDRAKER X *Troy Lee Designs*

## NEW MONDRAKER x TROY LEE DESIGNS KIT

Mondraker and Troy Lee Designs have come together, combining the personalities of both brands perfectly, to bring you their exclusive new, premium collection. The two companies, both born from a love of competition and a hatred for mediocrity, were obvious partners to develop this range comprising of unique designs in conjunction with some of the worlds best regarded mountain bike garments and helmets.

Troy Lee Designs has been a byword for quality and a go-to for informed riders for years. These traits are admired and shared in equal measure by Mondraker so you can be assured of the unparalleled design and instant appeal of the offspring created by two such influential parents.

## RACING DNA

Troy Lee Designs has always stood out for their top quality products and their desire to evolve those products to the max for their racers and customers alike. What's more, the racing pedigree of the brand is burned into its DNA and we're proud that we can say the same about Mondraker. The constant innovation and design of our bikes makes us a benchmark brand internationally.

That's why this collaboration between the two companies to bring out the new products which make up this kit is historic and unique. Troy Lee had never before personalized a complete range of their apparel for a Bike Brand, always concentrating on sponsoring racing teams and making kit for them, which is all the more reason we at Mondraker are so proud of this moment.

## KIT MONDRAKER x TROY LEE DESIGNS

The kits are made up of helmet, shirt, shorts and gloves in matching colours. There are two versions, both long and short-sleeved options. What's more we're tying in with the international launch of the new A3 helmet from Troy Lee Designs which is the model which has been chosen to be produced in the Mondraker colourway.

## MONDRAKER x TROY LEE DESIGNS A3 HELMET

Troy Lee Designs' third generation Trail / All mountain / Enduro helmets have arrived in the guise of the spectacular A3. It was designed with strength and comfort as its two main objectives and its stunning design with 16 ventilation holes offers better than ever ventilation. It comes with the 360° Precision Fit system and 3 levels of height adjustment. Manufactured with two different densities of expanded polystyrene (EPS and EPP) foam, it has the MIPS (Multidirectional Impact Protection System) built in for greater protection. Adjustment is simple, using straps and the V2 Fidlock magnetic buckle. It also includes the Sweatglide system (removable, washable and replaceable sweat management system) and the Xstatic® lining to prevent sweat from accumulating and to avoid unpleasant odors. It is also available in two different colorways.

### SPECIFICATIONS

- EPS and EPP for high-speed and low-speed impact energy management
- Precision Fit 360-degree adjustment system, 3 levels of height adjustment and V2 Fidlock magnetic buckle
- MIPS for greater protection in case of accidents or falls
- 16 ventilation holes
- Sweatglide system (removable, washable and replaceable sweat management system) and Xstatic® pads
- "Smart shear" visor fixing screws that break in a controlled manner when crashing to prevent further damage
- Sizes XS-S, M-L and XL-2XL
- Weight: 375 gr
- We are also offering spares to prolong the life of your helmet: Replacement visors in case of breakage or just for a change (€39.95), interior padding in different thicknesses (€39.95) and visor adjustment screws (€9.95)
- **Price: €269.95**

- Silicone print on the fingers for better feel when using the brake levers
- Sizes S, M, L and XL
- **Price: €39.95**

#### About Mondraker

Mondraker is an independent, fast-moving brand, based in Alicante, Spain but at the forefront of a global mountain bike market. Producing high performance products that have proven themselves in the most demanding of environments Mondraker have seen their bikes turn dirt into precious metal by winning medals in DH World Cups, DH World Champs and XC World Cups.

Throughout our 20 years of design, production, passion and competition Mondraker have developed the knowledge and experience to deliver true "competition level bikes for everyday use". The very same bikes that have piloted riders from MS Mondraker and PMX Racing to success in DH and XC races all across the globe are available from great bike shops for the enjoyment of every rider. Mondraker have never been scared to innovate and take risks but keeping focus on what matters most, making sure Mondraker benefits you, the rider, is at the core of what the brand does best.
